## EXPERIENCE

### COGNIZANT | SALESFORCE DEVELOPER

Jan 2021 - Present | Pune, MH

- As a Salesforce Developer on a health cloud application client of Cognizant Technology Solutions, I excel at providing real-time solutions for critical business deadlines.
- Expertise in implementing customization using triggers, apex classes, apex batches, and more.
- Responsible for handling all data-related activities and user support as per requirement, and transferring basic to advanced knowledge to team members.
- Exceptional debugging skills and a keen eye for testing new features in the system.
- Expertise in Salesforce Configuration, including validation rules, data security, roles, permission sets, process builder, flows, company information, public groups, case management, lightning app builder, page layout, object creation, fields, and user management.
- Experience in creating sandbox environments for deployments and post-refresh activities to disconnect with production.
- Oversee the end-to-end data life cycle within Salesforce, directing major data loading activities including patient record acquisition, validation, and transformation, while ensuring compliance with regulatory standards and internal policies.
- Collaborate cross-functionally to design and optimize data integration processes, troubleshoot pipeline issues, and implement governance policies, ultimately guaranteeing the accurate and timely loading of patient data into the system.
- Proficient in user stories creation and backlog prioritization, allowing me to effectively manage tasks and ensure timely delivery of critical production defects
- Passion for technology and commitment to delivering high-quality solutions make me an asset to any team.

## AWARDS

### ALWAYS STRIVING, NEVER SETTLING AWARD

- I was honored with this award for playing a pivotal role as a key member of the team, driving numerous critical activities, implementing technical processes, and contributing to data analysis, reporting, and management that were instrumental to the success of the team.
